***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-4, 8-9, 13-14, 18-20, 24, drawn to a catalytic converter, classified in class 422, subclass 177.
  - II. Claims 5-6, 10-11, 15-16, 21-22, drawn to another embodiment of a catalytic converter, classified in class 422, subclass 177.
  - III. Claims 7, 12, 17, 23, drawn to another embodiment of a catalytic converter, classified in class 422, subclass 177.
  - IV. Claims 25-32, drawn to a catalytic converter, classified in class 422, subclass 177.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions IV and I-III are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP ' 806.05(c)). In the instant case, the combination as claimed does not rely solely upon the patentability of any particular subcombinations for its own patentability as evidenced by independent claims to each subcombination.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their recognized divergent subject matter and the search required for one group is not required for other group, restriction for examination purposes as indicated is proper.

Art Unit: 1764

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement is traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
